

ECO-TOURISM LODGE - NORTHERN LAOS

Kamn Lodge

Kamu Lodge - Environmental Adventure in Pristine, Remote Laos

There are precious few places left on Earth where a genuine low-impact ecotourism experience is possible. Our remote location in Northern Laos gives visitors a unique opportunity to experience rural life in Asia which has hardly changed in a thousand years.

Access to Kamu Lodge is by boat - a scenic 2 1/2 hour journey on the Mekong River from the peaceful and charming city of Luang Prabang.

Life at Kamu Lodge

We share our environment with the local people who are of the Kamu ethnic minority. They share their traditional methods of farming, weaving, fishing and even panning for gold! Guests at Kamu Lodge are able to fully participate in rural life alongside the Kamu people, giving a unique insight into the lives of these extraordinary people.

Whether trekking to a remote waterfall, learning about medicinal plants in the jungle, planting rice alongside villagers in a paddy field or watching life on the river, all of our guests find a stay at Kamu Lodge educational and inspirational.

Meals at Kamu Lodge are taken al fresco, with the breeze from the river cooling our guests as they enjoy a selection of fresh, organic fruits and vegetables and local specialities.

Accommodation

Our safari tents are purpose built, imported from South Africa and feature solar-powered water heating and electricity. Each has a private balcony overlooking the river and is simply but comfortably furnished with bamboo and rattan furniture. Each tent has twin beds with a comfortable duvet and mosquito net. Like all the structures at Kamu Lodge, the tents and attached stone bathrooms are designed to blend perfectly with the surrounding environment and scenery.

Special Arrangements

Kamu Lodge is ideal for individual travellers and small groups. We can make special arrangements for trekkers, birwatchers, corporate groups (team building and "think-tanks"), schools and colleges etc.
